### PROFILE

As a passionate front-end developer with 2 years of experience specializing in Angular, I excel in building dynamic, responsive, and user-friendly web applications. I have a deep understanding of Angular' s core concepts, including reactive forms, services, state management, and API integrations. My focus is on delivering high-performance applications with clean, maintainable code that follows industry best practices.

I thrive in collaborative environments and enjoy working with cross-functional teams to translate business requirements into technical solutions. I'm continuously learning and staying updated with the latest trends in front-end development and Angular evolving ecosystem.

### WORK EXPERIENCE

**Health Sync :-**

**OCT 2022 - NOV 2024**

- Angular (Front-End) Developer .

Health Sync is an innovative platform designed to revolutionize the way healthcare professionals and patients manage appointments and medical records. Its primary focus is to deliver a seamless and efficient solution for booking, tracking, and managing medical appointments in real-time. Health Sync's core feature is its intelligent User Role Management system.
