- English

Sep 2024 - Present

Node.js, Microsoft Access database package, and Readline package, ensuring data security and efficiency

Nest js developer

Ecbee innovations private limited

- Developed a Node.js project to convert Excel data to JSON format and store it in MongoDB
- Conducted UAT and demonstrated proficiency in using PM2 commands
- Implemented and resolved bugs in Nest.js microservices connected to MongoDB
- Modified code to match specific project requirements

Projects

213 Days

vaishali

- Technologies: AWS Lambda, API Gateway, DynamoDB, CloudWatch
- Implemented serverless architecture for scalable and cost-effective operations

181 Days

sahins

- Technologies: NestJS, PostgreSQL, TypeORM
- Developed a robust blood sample tracking application enhancing healthcare logistics

2 Months

Streamline

- Technologies: Node.js, MySQL, Node Cron, Node Mail
- Created an efficient social media post management system with advanced filtering and scheduling capabilities

1 Months

Biometric

- Technologies: Node.js, Microsoft Access, Readline
- Engineered a secure biometric data management solution for enhanced data integrity and access control

2 Months

CLE

- Developed a Node.js project to convert Excel data to JSON format and store it in MongoDB
- Implemented and resolved bugs in Nest.js microservices connected to MongoDB
- Modified code to match specific project requirements
