Indore , m.p. 452001 India 📍

Professional Experience

5+ years of experience as a Software Quality Engineer

Personal Skills

Excellent problem solving & analytical skills
Quick learner
Self-motivated
Result-oriented
Team player
Good verbal and written communication in English

Qualification

Bachelor of Engineering from RGPV, Bhopal India.

Languages Known
English
Hindi

Personal Details
Date of Birth: 07-Aug-1991
Gender: Male
Nationality: Indian

Profile Summary

- To leverage my 5+ years of expertise in software testing to drive quality assurance in a dynamic environment, fostering growth and innovation.
- Proven track record of delivering high-quality testing solutions.
- Experienced in testing with extensive knowledge of Automation Framework Design & Implementation using **Selenium** Tool
- Experience in **Manual** & **Automated** Testing of GUI and functional aspects of Client - server and Web based Applications on multiple levels of **SDLC** and Software Testing Life Cycle (**STLC**).
- Good Knowledge of **Object-Oriented programming Concepts (OOPS)** and **Java** Skills
- Experience in **Functional, Regression and System** testing using **Manual and Automated testing tools - selenium WebDriver** with **TestNG**.
- Good Experience in using **Jmeter**, **FireBug**.
- Good Experience in writing **XPath** to locate web elements.
- Worked on **Cross browser testing**, browsers like Mozilla Firefox, Google Chrome and IE using **WebDriver**.
- Well versed with **Agile** process
- Experience in analyzing **Business**, **Functional** and **Technical** Specifications
- Experience in writing **Test Plans, Test Cases, Test Procedures and Test Scripts** from requirements and Use-Cases
- Expertise in performing different types of Testing: **White Box (Unit Testing, Integration testing), Black Box, Smoke, Functionality, Integration, Stress, Volume, System, Performance, Regression Testing and Full Life Cycle Testing.**
- Experience with continues integration tool **Jenkins**, build tool **Maven** and version control / source code management tool **GitHub** implementation for **Selenium** scripts and had an exposure to DevOps.
- Ability to work in a fast-paced, deadline-driven environments

Technical Skills:

Operating Systems: Windows

Test Management Tools: JIRA, Bugzilla

Automation Tools: Selenium WebDriver, TestNG, Postman, JMeter

Programming Languages: Java

Database: SQL, Oracle

Web Technologies: HTML, CSS

Version Control Systems: GIT, GitHub, GitLab

Build Tools: Maven

Professional Experience:

Codebytes Indore   **(Oct 2018 – Feb 2021) QAE**
Project: E-commerce application (UK client)
Roles and Responsibilities:
1. Understanding business requirements from client
2. Executing test cases/scripts/scenarios on schedule
3. Evaluating functional and non-functional requirements for testability
4. Developing/building test automation strategy
5. Designing, building, and executing automated tests
6. Identifying regression testing needs and creating/maintaining Automated Regression Suite
7. Providing test execution reports

Datapure Technology   **(March 2021–April 2022) Testing Analyst**
Project: Griot Legacy application and StockSocial
Roles and Responsibilities:
1. Developing new test cases and maintaining existing ones
2. Producing well-structured, documented, and maintainable test scripts
3. Executing defined test cases to uncover bugs and regression issues
4. Understanding and being aware of code changes that may impact test coverage and execution
5. Documenting results of failed test cases and providing evidence
6. Responsible for CI/CD process, monitoring Jenkins, and ensuring pipelines are up to date

Brainium Information Technology   **(May 2022–Nov 2024) Testing Analyst**
Project: Worked on 25+ applications for manual/automation/performance testing
Roles and Responsibilities:
1. Converting user stories/use cases into test requirements
2. Complete test execution by running manual and automated test cases
3. Developing effective, reusable, and maintainable manual and automation test cases
4. Status reporting and documentation (Daily/Weekly status report)
5. Participating in estimation meetings, sprint reviews, and retrospectives
6. Coordinating with development team for bug fixing and preparation of Test Execution Report
7. Testing REST API using REST Assured, TestNG

Achievements
- Successfully implemented automated testing solutions, reducing testing time by 30%
- Improved test coverage by 25% through rigorous test case development
- Collaborated with cross-functional teams to ensure timely project delivery

Extracurricular Activities
- **Volunteer and coordinator**- As a part of outreach initiative, Coached and guided student [2-8th grade] from rural background.
- Participated in team building activities, marathon.
