WORK EXPERIENCE

Senior Angular & Ionic Developer | FEB - 2025 - Present

Teqheal , Surat-IN

- I am working as a senior angular and ionic developer and also responsible for the project leader.

- As a senior developer, I am responsible for creating and implementing a new mobile app or web app for the company client.

- Currently, I am working on a pickup & Loading App that has driver checked-In product and monitoring and managing delivery route and checkout the product final destination.

PROJECTS

My Orders App (E-commerce platform for orders & payments)

- Created an e-commerce web app that allow use to place order and payments.

- Ionic , REST API, soap , query , node js

Pick Up & Load App

- developed web app that allow product checked in and managing and monitring product and checkout the product final destination.

- Ionic , REST API, soap , query , node js

External Carrier

- created a web app that allow login with scanner and stop wise product managing by arrival, load , delivery and departure and checkout.

- Ionic , REST API, soap , query , node js

E - Leave

- Successfully enhanced the company's leave policies by adding a Festival Leave category in addition to the existing sick leave and unpaid leave. This update was implemented to better support employee well-being and work-life balance, aligning with cultural observances.

- Angular, REST API

Deko Stream (Live Streaming multiple app)

- created web app that allow user to create, update,delete the live video and user live streaming to multiple device.
