OBJECTIVE

I specialize in creating responsive and high performance mobile applications that deliver seamless, user-friendly experiences. I am eager to contribute to innovative projects, enhance my expertise in Flutter and Dart, and collaborate with dynamic teams to deliver top-quality solutions. My goal is to continually improve my skills while supporting the success of a forward-thinking organization.

LANGUAGES

- **English (Basics)**
- **Hindi (Fluent)**
- **Gujrati (Fluent)**

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief. If given the opportunity, I am committed to demonstrating my skills and dedication to the fullest.

SOSI-IHM

https://play.google.com/store/apps/details?id=app.sosindia.sos_india

- Enabled seamless communication between the app and the server.
- Incorporated image compression to optimize performance and reduce storage usage during uploads.
- Developed module to fetch and display Hazmat information for critical data access.
- Enabled image uploading capabilities and integrated QR code scanning for efcient data entry and retrieval.
- Utilized Sqflite database for local data storage, ensuring the app functions effectively offline.
- Congured a mechanism to download all necessary data in one go for uninterrupted offline operation.
- Implemented syncing of locally stored data with the server whenever the device reconnects to the network.
- Congured Shared Preferences for lightweight and persistent data storage to enhance user experience
- Integrated dynamic loading of network images to boost performance and scalability

MIT APP

https://play.google.com/store/apps/details?id=com.meetanshi.mit_app
